Artists Performances

Performances presented by artists of all kinds, sharing their talent on our stage.

Generations Speaking Palestine

The “Generations Speaking Palestine” Exhibition mirrors the highs and lows of the journey of life, serving as a poignant reminder of the harsh realities and suffering in Palestine. Each chamber within the exhibition evokes a unique set of emotions and stories, engaging all five senses to create a deep, personal connection with Palestine. The experience culminates in a striking presentation of Naji Al Ali’s artwork, the works of artists from Gaza, our Qatar Foundation Schools students, and the Qatar Reads Team as a part of their “One Book One Doha” campaign focusing on the book *Men in the Sun* by the Palestinian author Ghassan Kanafani. This exhibition promises to leave a lasting impact on every visitor.

Food Baazar
